mobility & access

Access and mobility are issues that touch everyone's life at one time or another.

Many people experience reduced mobility in various situations including young people with sporting injuries, older people with less agility or people with disability. It is therefore crucial to acknowledge that the entire community benefits from a more accessible environment. This guide was put together to give you an overview of the mobility equipment that can help you overcome the obstacles you might face.

Please note that the full range is available on our website: www.aidacare.com.au.

Do you need help with product selection and sizes?
