ASPIRE PRESSURE REDUCING ADJUSTABLE DAY CHAIR – NOW AVAILABLE!

We have made some local product updates to our existing Aspire Adjustable Day Chair, to convert it to a higher spec pressure reducing seating surface.

Ideally targeted at the Acute Care Sector, the Pressure Reducing Adjustable Day Chair is covered in 4-way stretch material and memory foam, improving a user's seating experience.

As we utilise the Aspire Adjustable Day Chair to make this pressure reducing option, stock levels may seem low initially, however we have the ability to customise locally with a short lead time.

KEY PRODUCT FEATURES

- o Carrflex™ PU 4-Way Stretch Fabric provides superior chemical resistance whilst retaining flexibility and breathability.
- o High quality Australian memory foam provides a comfortable and supportive surface, improving user comfort and pressure redistribution.
- o Maximised Immersion and Envelopment which is fundamental for a support surface to effectively redistribute pressure improving blood flow which promotes healing.
