ASPIRE HYBRID MATTRESS RANGE UPDATE!

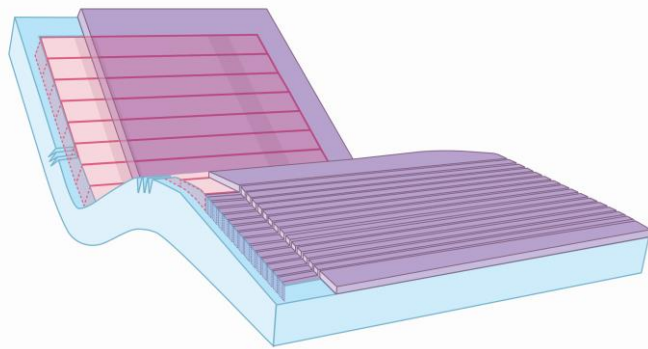

We are pleased to let you know of some changes made to our Aspire Hybrid Mattress range.

The range has now been consolidated, incorporating the Hybrid & Hybrid Acute into the Hybrid Comfort.

The Hybrid Comfort offers the high 230kg SWL like the Acute, with the comfort of the Hybrid. These changes allow for a much clearer range offering without losing any of the Hybrid's pressure redistribution capabilities.

IMPROVED FEATURES & NOTES

- o **HYBRID Comfort Mattresses** have been updated to include:
 - o Full length 50mm memory foam overlay (with integrated tapered heel section) for maximum comfort
 - o Softer foam within Hybrid Cells, for an improved sleeping experience and high-pressure redistribution capabilities
 - o One system with 230kg SWL, reducing SKU count
- o Pumps have not changed and can work with all Hybrid systems, code: PTM638030
- o

Aspire HYBRID Comfort Mattress
PTM638005 – Single
PTM638006 – King Single
PTM638030 – Mattress Pump
