Supplied in a kit with Stereo and Mono cables suitable for most Australian Nurse Call Systems

OR

Code	Description	Warranty
BEA007610	Alerta Detect Infrared System (includes sensor, receiver & cables)	1 Year

KEY FEATURES AND BENEFITS

- Infrared beam senses when a patient leaves their bed, alerting carers to minimise potential falls risk
- Can also be used to allow the patient to move around their room freely, only alerting carers if they leave their room
- Can be used as a standalone system (sensor & receiver via infrared "IR") to create an alarm within the room or directly placed into nurse call system (sensor only)
- Wireless plug and play ensures carer can quickly set up and operate with ease
- System includes: Sensor & Receiver, Stereo & Mono Nurse Call Cables
- Wireless solution that removes excess cables and provides a streamline falls prevention solution
- Large sensor range of up to 95m ensures all types of room configurations are covered
- Can be battery operated (sold separately) or via a mains power cable (optional accessory)
- Receiver can be carried around in the homecare space by a carer, fitting neatly into the pocket

Supplied in a kit with Stereo and Mono cables suitable for most Australian Nurse Call Systems

IDENTIFY YOUR PLUG TYPE

Most nurse call systems take one of the following plug types:

MONO PLUG

STEREO PLUG

Mono and Stereo cables are the most common connection types in nurse call systems in Australia. Alerta alarm systems are supplied with both mono and stereo cables when purchased as a system, to ensure there is no delay upon installation.

If you require assistance identifying your plug connection type /if you have a plug connection that is different to these, please contact sales@aidacare.com.au to discuss options.
